PROGRAMS AND FUNCTIONS

Fan assisted Cooking

The upper and lower heating element operates with the help of a fan, which ensures an even heat distribution.

Convection

In this case, the heat comes from both above and below at the same time, this method is ideal for roasting meat or fish.

Grill

This function is ideal for cooking medium thickness or thin meat. With the ventilation operation the fan delivers the air to the food at the desired temperature.

Pyrolytic cleaning System

The oven reaches temperatures of up to 500°C, while the door remains cool on the outside: The pyrolytic program pulverises food and fat residues: Simply wipe the oven at the end of the cycle with a damp cloth, and your appliance will be clean and ready to use again.

Cook Light

This function allows to cook healthier, by reducing the amount of oil or fat.

Pizza

The enveloping heat of this feature creates the ideal cooking conditions to prepare the perfect italian style pizza.

FARMHOUSE

The Belling **Farmhouse** collection combines traditional style with Belling’s reputation for reliability. The charming style with a slight modern twist helps these range cookers to work just as well in a contemporary setting, coming in 90cm, 100cm or 110cm on request. The new Belling Ranges have been designed with Large capacity cooking at the fore front of mind; the new designed ovens are perfect for big batch cooking and Sunday roasts coming with a minimum of 3 cavities with the latest Air fry function inclusive in all ranges to perfect them roast potatoes.

Belling offers three fuelling options to suit your preferences Dual Fuel (DF), Electric (E) and Electric Induction (Ei).

DF All 90cm DF ranges come with 5 Gas Burner hob, including a powerful central 4KW wok burner, all 100cm & 110cm ranges with DF will come with 7 Burner gas hob including a powerful 4KW wok burner. These hardwearing, raised cast iron pan supports are a small addition that makes your hob easier and safer to use. Their ergonomic design creates a sturdier surface to stop pans from toppling, even if they’re placed off-centre. Plus, they’re easy-to-clean, make pans easier to move across the surface and help protect your hob from scratches.

E All Electric Induction Ranges in sizes 90cm, 100cm and 110cm come with a 5 zone induction hob. With the targeted accuracy of induction cooking, it’s like you’ve put an individual heating element inside each pan. Placing a pan on any of the five induction zones completes a magnetic circuit below the hob’s surface to create energy in the base – which heats the pan and its contents, not the hob itself. This means no heat is wasted, so you save energy. It’s a faster, safer and greener way to cook. All Electric inductions come with Link+, your hob adapts to a variety of pan sizes. This flexible technology allows you to connect two induction zones to create a bigger area for cooking, then adjust the heat using just one control. It’s ideal for those large cast iron pots, woks or longer pans like fish kettles or griddles.

Ei All 90cm E ranges come with a 5 zone ceramic hob, 100cm & 110cm ranges will come with 7 Zone ceramic hob. All including a double ring dual zone and a large warming zone. This gives you plenty of space to keep sauces gently simmering whilst bringing water swiftly to the boil. Plus, the smooth ceramic glass makes it easy to keep clean.

COOKCENTRE

The Belling **Cookcentre** collection offers a well-engineered range cooker with stunning good looks and modern lines, whilst being a brilliant option for those with a budget in mind, available in 90cm, 100cm & 110cm on request. The new Belling Ranges come with a minimum of 3 cavities, they’ve been designed with large capacity ovens, perfect for big batch cooking and Sunday roasts with the latest Air fry function which are a must for busy families. This built-in feature gives you all the energy-efficiency, health benefits and crunch of an air fryer with all the space of your traditional oven – and eliminates that extra appliance cluttering up your counter-top.

Plasma

INTRODUCING OUR ADVANCED FILTER

This compact powerhouse not only rids odours with plasma but also tackles fine dust and contaminants using cutting-edge electrostatic discharge [ESD] technology all combined in one filter, making it one of a kind and worldwide patented.

OPTIONAL PLASMA Compatible with Caple Plasma filters

GUC1223 Ref: 081000

- › For hoods with extraction rate up to 1000m3/h
- › Filter technology: Plasma and ESD
- › Inlet diameter: ø150mm [also includes 120mm adaptor]
- › Power consumption: 8Wh
- › Weight: 1,95kg
- › Dimensions: ø165 x 282mm
- › Lifespan: 10/15 years
- › Warranty: 2 years [extended to 5 years if registered]

GUC1323 Ref: 092100

- › For hoods with extraction rate up to 1000m3/h
- › Filter technology: Plasma and ESD
- › Inlet diameter: 220 x 90 mm
- › Power consumption: 8Wh
- › Weight: 2,35kg
- › Measurements: 310 x 90mm
- › Lifespan: 10/15 years
- › Warranty: 2 years [extended to 5 years if registered]

ART020 Ref: 003300

- › 90 degree elbow adaptor for the GUC1323
- › Designed to further reduce the installation gap

PLASMA EXPLAINED

Scan to watch the installation process and uncover the functionality of these advanced filters.

STACK SMART, SAVE SPACE

Maximise laundry space with the stacking kit, designed to securely position the freestanding dryer on top of the washing machine. The built-in sliding shelf with an anti-tipping system holds up to 15kg - perfect for loading, unloading, or folding fresh laundry. With a drawer depth of 330mm, it's a small addition that makes a big difference.

Circo Therm® – Hot air system for simultaneous cooking Circo Therm® hot air technology focusses heat directly on the food being cooked, so surfaces of bakes and roasts are sealed quickly. This seals in moisture makes meats juicier and cakes delicious and moist.

Slide & Hide® – The only oven with a disappearing door. Slide & Hide® is the first choice for individualists, who want to enjoy their passion for cooking without limitations. The iconic Slide & Hide® door effortlessly slides away beneath the oven when not in use.

CERAMIC SINKS

Each ceramic sink is hand finished, so no two sinks are ever alike - sizes may vary by plus-or-minus 2%. We recommend measuring the actual sink before fitting to ensure the perfect fit.
